

KOONA PALLI CHARAN

Tirupati, AP | +91 7981813650 | koonapallicharan7898@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Electronics and Communication Engineering graduate with strong knowledge of Java, Python, SQL, HTML, CSS, JavaScript, and MySQL. Hands-on experience in web development, embedded systems, and IoT projects. Passionate about software development, problem-solving, and building scalable applications. Seeking a Software Developer role where I can contribute technical skills and continue learning.

EDUCATION

B.Tech – Electronics & Communication Engineering 2023 – 2026

Sri Venkateswara College of Engineering, Tirupati | 77%

Diploma – Electronics & Communication Engineering 2020 – 2023

Govt Polytechnic College, Chandragiri | 69.9%

SSC – Secondary School Certificate 2015 – 2020

Gitam High School, Chandragiri | 96.5%

TECHNICAL SKILLS

Languages: Python, Java, JavaScript

Web Technologies: HTML5, CSS3, React Native

Backend / DB: JDBC, MySQL, SQL

Tools: Git, GitHub, VS Code, Eclipse IDE

PROJECTS

IntelliDoor – Smart Digital Notice & Verification System | Raspberry Pi 5, Python

- Developed a Raspberry Pi 5–based smart digital notice system with fingerprint authentication.
- Built a real-time seat allocation and verification module using Python and SQLite/MySQL.
- Automated exam hall management by replacing manual seating charts with an energy-efficient embedded solution.
- Blended hardware and database components for secure authentication and real-time information display.

Restaurant Menu Website | HTML5, CSS3, JavaScript

- Implement a responsive restaurant website using HTML, CSS, and JavaScript.
- Created responsive layouts and user-friendly navigation.
- Tested website presentation and menu accessibility.

Bank Management System | Python

- Built a Bank Management System using Python, OOP concepts, and file handling.
- Implemented account creation, deposits, withdrawals, and balance checking.
- Used file handling for secure data storage.

Home Automation System using Arduino | Arduino Uno, Embedded C

- Integrated a Bluetooth-enabled home automation system using Arduino for smartphone-based appliance control.
- Merged relay modules and sensors to enable reliable wireless operation and real-time device management.
- Implemented individual appliance control and scene management to improve automation efficiency and user convenience.
- Evaluated and optimized the system for stable performance and low-power operation.

INTERNSHIP EXPERIENCE

Full Stack Java Developer Intern | Vstand4u Technologies Dec 2025 – Present

- Created and tested Java-based web application modules using Java, HTML, CSS, JavaScript, and MySQL.
- Integrated backend functionality to support user authentication and data management.
- Performed database operations and CRUD functionalities using MySQL.

AIL Dixon Pvt. Ltd., Tirupati | Testing & Reworking Center (TRC)

- Achieved 98%+ assembly accuracy by following standard operating procedures.
- Conducted functional testing to ensure product performance and reliability.
- Worked with the Quality Assurance (QA) team to maintain production standards.

CERTIFICATIONS

- VLSI Design – CodeTech IT Solutions (2025)
- AI, ML & Generative AI – VStand4U Technologies (2026)
- 2-Day Python Programming Workshop – [CREC]

ACHIEVEMENTS

- NCC 'B' Certificate Holder---Demonstrated leadership, teamwork, and discipline through NCC activities.
- **Captain of the College Cricket Team** – Led the team to win the college cricket tournament.
